

THE 25-50 KGS BAGS BY **INTERJUTE**

‘THE INTELLIGENT BAG PROVIDER’

THE 25-50 KGS BAGS BY **INTERJUTE**

Based on 50 years experience supplying flexible packaging materials, Interjute has achieved a leading position in the international bulk packaging sector. We offer quality, efficiency and competitive prices. Interjute is truly the Intelligent Bag Provider.

The world of flexible bulk packaging materials consists of a wide variety of products. We are able to deliver hundreds of different product specifications from stock. The actual scope of our total product range is difficult to quantify due to the large number of tailor-made products.

For this reason, it's almost impossible to present a total overview of our product range. To get a good idea of what we offer, you can surf to our product information pages at www.interjute.com.

25 – 50 Kgs

Since many years we have made it our speciality to supply our customers with 25 – 50 kgs. bags. We supply all the current types of bags from our stock in the Netherlands or Spain for a wide range of products. Printing capacity is flexible and packing is adjusted to your bagging line. Should your needs be such that a supply from our stock is not the proper answer to your

questions, a tailor-made solution will be found. In such a case our producers will be screened to find the best-fit solution in function of quality and deliverytime.
